I see some people complain about the violins, some people like and some don't. the answers is the debut album by blue october and in my opinion it is their best album reasons being is, it is a well written album musically and lyrically they put some great songs together and it could be just me loving the 90s type of sound or the self low budget sound of the album but the album flows even and keeps wanting to comeback to track 1 and play it all over again.

Review Summary: The Answers, the often overlooked album by the often overlooked band, Blue October. If you like meaningful lyrics, great violin solos, and honesty in music...Do not read anymore. Just go and buy the CD. What bothers me the most about many mainstream listeners is that they hear one song from an artist and give up on them.
