Stances - Northern Shaolin Kung Fu Stance training is important for building strength in the legs and learning how to properly shape the stances in the forms. Good stances are stable, strong, ready to change and are the foundation of the power in Kung Fu techniques. Northern Shaolin is famous for its long and low Bow stance.

### **Chinese martial arts - Wikipedia**

The basic stances of Kung Fu (in most cases) are very similar between the various styles that we can see and the differences die mainly in some postural details. In most cases (if we talk about serious martial performance), the postural variations are not to be identified in terms of “right” or “wrong” but rather:

Foundation of every form and in the end every attack and block. A good stance can be the reason you win or lose a fight and if performed correctly they make the movements so much more beautiful. A perfect Kung Fu Form is like a deadly dance.

### **Kungfu Knowledge Series - These are the 5 main Kung Fu Stances**

All Kung Fu styles have their strengths, but one they all share is strength of the lower body, or leg strength. They all employ low stances so as to be able to root themselves for offensive as well as defensive movements. The twelve ton tois that we train are actually sets of movements which are designed to work on your stances.
